About the Tokyo International Audio Show

The show started 1983 as the “ Import Audio Show” to introduce cutting edge audio technologies and the joy of listening music through such high-end audio equipment.

Since 1997 the show has been located at the Tokyo International Forum; it is an annual event. The number of visitors during the show’s 3 day period is over 10,000.

Analog players to hi-rez file music will be demonstrated in acoustically ideal listening environment. Listeners will enjoy quality music in a cozy environment, played on affordable high-end to flagship equipment rarely seen at stores.

Events

We invite 190 show visitors via a lottery to a live performance scheduled at Cotton Club live house across the street from Tokyo International Forum on 3rd October (Sunday).

Exhibitors are planning to have seminars by audio reviewers or engineers in their own exhibit rooms. Please refer to official site of IASJ, www.iasj.info.
